# Chrysanthemums

There are several hundred large flowering Chrysanthemums and Pompons and as it is impossible to list them all here, we must necessarily classify them as good, better and best, and list only the best. For commercial growing, with many, however, it is a matter of choice, and we shall be glad to secure for you any variety.

Our complete list, with prices, will be ready February 1st.

## NEW BEGONIAS

This set of five varieties we believe to be a decided step in advance of any Begonias of the Semperflorens type yet introduced. February delivery.

Price \$12.50 per 100.

**FLAME OF LOVE.** Color brighter than Mrs. Patten, softer than Newcastle; dwarf and compact in growth, covered with flowers; an early variety.

**ALBERT MARTIN.** Like Flame of Love; flowers not quite so large; dwarf and a more bushy grower than Flame of Love; also an early sort.

**LIEGNITZ.** A grand sort to follow both Albert Martin and Flame of Love; ideal for late Winter and Spring pot plants; free growing, medium tall; flowers bright red, showing lighter to center and showing prominent yellow stamens, giving the appearance of a yellow eye.

**CHATELAINE HYBRIDS.** Very much like Chatelaine Supreme, only flowers are larger with same color; freer bloomer than Supreme and not so coarse in growth.

**SCHMIDT'S IDEAL.** This is a true red, large flower, free growing and medium dwarf growth.

### FLORANID

Floranid hastens development of flowers, increases florescence and size of bloom, heightens color, and increases length of stem. Its use is highly profitable. Floranid is produced by the world's largest manufacturers of fertilizers. 1/2-lb. and 1-lb. cans and 50-lb. bags.

## F. and I. TOBACCO MULCH

### ITS VALUE AS A FERTILIZER

Containing, as it does, from 2% to 3% Ammonia, 4% to 6% Potash and 1/2% of Phosphoric Acid, is actually worth from 6 to 8 times as much as ordinary stable manure. At the price we ask it is cheaper than manure and far better than chemical fertilizers.

It is entirely a vegetable product and when placed in the ground rots away rapidly, adding valuable humus to the soil.

The high potash content gives the plant just the food it needs to make strong, healthy stalks; wonderful for Carnations, Sweet Peas, Roses, and other plants that need long, strong stems.

The nicotine content is very high, therefore, if used as a mulch on bench or pots it will destroy rose midge, strawberry beetle, root aphid, etc., and control green fly, thrips, aphid, and all soft-bodied, sucking insects. Nicotine content not less than 1%. \$35.00 per 2000 lbs.

**Tobacco Dust.** A good grade of Tobacco Dust, coarse and fine together, well screened, all large pieces of stems, wood, etc., removed. 2000 lbs. \$30.00.

**Cut Tobacco Stems.** Specially prepared for mulching or fumigating, clean and fresh, packed in burlap bags. 2000 lbs. \$20.00.

# NEW CARNATIONS

## 1925-1926

**YULETIDE.** As the name implies, "a real Christmas flower." In color an intense scarlet, with a rich clove perfume. The parentage is "Beacon" crossed by "British Triumph." In size, the flower is the same as a good sized "Beacon," with the same wiry stem as "Beacon." The flower has just enough in it to develop freely without bursting and a burst calyx is seldom seen. It comes away with a freedom of growth we have never seen in any other Carnation, and while it is an early and continuous bloomer, it nevertheless gives its main, or heaviest, crop for Christmas. It is a real commercial acquisition. Rooted Cuttings, \$15.00 per 100, \$125.00 per 1000.

**ARCTIC.** A pure white, large flower, early and free; perfect calyx, good stem and, most important of all its keeping and shipping qualities. Rooted Cuttings, December and later, \$15.00 per 100, \$125.00 per 1000.

**ROYAL.** Rich, wine-color, a new color in Carnations. A novelty. A wonderful grower. Never splits. Very good keeper. There will not be nearly enough cuttings to supply the demand. Order early. Rooted Cuttings, \$20.00 per 100, \$150.00 per 1000.

**GOLDEN GLOW.** Description and prices later.

**IMPROVED PINK DELIGHT.** A larger flower and a better color and possesses all the other good commercial qualities of the original Pink Delight. Rooted Cuttings, \$9.00 per 100, \$80.00 per 1000.

**HOPE HENSHAW.** Improved and selected. Has proven to be a very fine Carnation and is in very heavy demand, replacing Ward. Rooted cuttings, \$65.00 per 1000.

"Ideal"

## NEW DWARF SNAPDRAGON

For Pot Culture

An ideal pot plant for Winter sales—Easter, Mothers' Day, and such occasions. This is a re-selected strain of a dwarf growing Snapdragon obtained from careful selection of the best range of colors and the best habit of growth, with the idea in mind of getting a dwarf symmetrical, compact plant.

This strain has been fixed. It comes true to type and is not a plant needing special culture. This plant was in a 5-inch pot. It stood 11 1/2 inches from top of pot to top of flower spike, carried eleven blooms; was planted into a 2 1/4-in. pot February 1st and was finished ready for sale for Mothers' Day.

Colors are: Yellow, Red, Salmon-pink, Rose-pink, variegated. Can be had under separate colors or mixed.

2 1/4-in.....\$12.00 per 100, \$100.00 per 1000

# NEW ROSES

## FOR 1926

## SENATOR

A wonderful, New Dark Red Seedling Rose, to take the place of Hadley. This Rose originated at Florex Gardens and is a seedling of Premier and Red Columbia. Color: Dark scarlet, very brilliant, without the slightest trace of blue. Bud is long and pointed, well formed, and opens perfectly. Its fragrance is wonderful, which is very important in a red Rose. An exceptionally good keeper and shipper.

It produces long, strong stems without pinching. No blind wood and is almost proof against black spot and mildew. A very free bloomer. It produces a heavy, dark green foliage almost up to the bud.

Scions, \$180.00 per 1000; Grafted plants, \$45.00 per 100, \$400.00 per 1000  
5000 at \$375.00 per 1000. Special prices on larger quantities.

## MATCHLESS

A sport of Premier. Originated with Duckham-Pierson Co.

Color: Deep cerise-pink, very bright and cheerful. Almost the same shade as Russell. It is superior in every way to Premier, a better formed flower, opens perfectly, and a much better keeper; color does not fade, a stronger grower, better and more leathery foliage, therefore not as subject to blackspot or mildew. It will, without doubt, entirely replace Premier.

5000 Scions, \$180.00 per 1000; Grafted plants, \$45.00 per 100, \$400.00 per 1000.  
5000 at \$375.00 per 1000. Special prices on larger quantities.

## BRIARCLIFF

This Rose originated with Briarcliff Greenhouses, a sport from Columbia. It retains all the good qualities of its parent with none of its faults. The color is more brilliant than Columbia, without the salmon undertones of that variety, being a true rose-pink.

The bloom is larger than Columbia, having about 50 petals, and the bud is beautifully formed, long and pointed, with the petals so arranged that practically every flower opens perfectly. When the bud is cut in proper condition for market the outer petals do not reflex and can be packed for shipping without bruising the petals and marring the flowers.

Scions, \$180.00 per 1000; Grafted plants, \$45.00 per 100, \$400.00 per 1000.  
5000 at \$375.00 per 1000. Special prices on larger quantities.

## ROSELANDIA

A beautiful, orange-yellow sport of the English Yellow Ophelia.

A golden orange with a lustrous glow of apricot in the heart and at the base of the petals, frequently tinted red on the reverse of the outer petals, and the color holds as the flower develops. The buds are long, pointed from 1 1/2 to 2 inches long, of superb build and good substance, 26 to 28 petals well poised on long, slender but firm stems. The foliage is dark green, similar to Ophelia, and it will class with the freest flowering of our forcing roses.

ROSELANDIA is destined for great popularity and will quickly replace all other varieties of this type of color.

We are distributing this Rose for the Henry A. Dreer Co. of Riverton, N. J.

Scions, \$180.00 per 1000; Grafted plants, \$45.00 per 100, \$400.00 per 1000.  
5000 at \$375.00 per 1000. Special prices on larger quantities.

## Mrs. F. R. PIERSON

A fine red sport of Premier. Grafted plants, \$45.00 per 100, \$400.00 per 1000.

## RED PREMIER

Scott's Red Premier, introduced the past season, has proved and will continue to prove its merits. Prices for 1926: Grafted plants, \$30.00 per 100, \$260.00 per 1000; Own Root, \$20.00 per 100, \$175.00 per 1000.

## CLAUDIUS PERNET

We expect to have a good supply of this ever popular Rose next season, grafted and budded on Odorata, and English Manetti. We advise ordering your stock early. Grafted plants, \$50.00 per 100, \$450.00 per 1000.
